

My local Klove station (95.9) is always on in my car, at home & in my office. Klove has been a huge blessing to me and to all that are around me. We're in the car about an hour a day. My 5 yr old sings along with all the songs and helps to build the his foundation of faith in Jesus & God, all the blessings that they provide and how to deal with life's ups and downs by the Word of God. My co-workers come and sit down in my office for a while just to listen to KLove. The positive & encouraging music brings them instant stress relief from the hectic activities of the day. I can't imagine not having this foundation of constant positive & encouraging Word of God in the atmosphere for my family/friends. Thank you for not turning off my Klove!!!
